Publikacija «Žene i muškarci u Federaciji Bosne i Hercegovine» osma je u nizu ove vrste koju je objavio Federalni zavod za statistiku. Ovo izdanje objavljuje podatke zaključno sa 2017. godinom i pruža sveobuhvatan pregled položaja žena i muškaraca u Federaciji Bosne i Hercegovine.

Publikacija se sastoji od sljedećih poglavlja: stanovništvo, zdravstvo, obrazovanje, zaposlenost i nezaposlenost, socijalna zaštita, pravosuđe i izbori. Podaci su prezentirani u vidu tabela sa grafičkim prikazom i rezultat su provođenja statističkih istraživanja Federalnog zavoda za statistiku, a manji dio podataka preuzet je od drugih institucija ili drugih izvora podataka što je i navedeno ispod tabela.

Ravnopravnost spolova znači da su žene i muškarci jednako prisutni u svim područjima javnog i privatnog života, imaju jednak status, jednake mogućnosti za ostvarivanje svojih prava i jednaku korist od ostvarenih rezultata.

Publication «Women and men in The Federation of Bosnia and Herzegovina» is the eighth one of this kind published by the Institute for statistics of FBiH. This edition gives the data untill 2017 including and illustrate the position of women and men in The Federation of Bosnia and Herzegovina.

Publication is composed of the next chapters: population, health, education, employment and unemployment, social welfare, administration of justice, elections. It covers the data shown as the tables and charts. Most of these data are the result of the statistical researches carried out by the Institute for statistics of FBiH. Minor part of data has been taken over from other institutions or other sources whose names are stated below tables.

Gender equality means that women and men are equality present in all spheres of public and private life and that they have equal status, equal opportunities to exercise all their rights and equal benefit from achieved results.

Izvori podataka

Većina podataka prikazanih u ovoj publikaciji su rezultat istraživanja koje provodi Federalni zavod za statistiku, te za njih nije naveden izvor podataka. Manji dio podataka je preuzet od drugih institucija ili su rezultat posebnih statističkih istraživanja, te je za te podatke posebno naveden izvor podataka ispod tabela i grafikona.

Obrada i publiciranje podataka

Statistička istraživanja koja se provode u Federalnom zavodu za statistiku u skladu sa Zakonom o statistici u Federaciji BiH ("Službene novine Federacije BiH" br.63/03 i 9/09) i Planom provođenja statističkih istraživanja od interesa za Federaciju BiH (godišnji), statistika spolova (gender statistika) je integralni dio statističkih istraživanja. U razvoju svih statističkih oblasti gender komponenta je uzeta u obzir gdje god je to moguće.

Definicije i objašnjenja

Gender (rod) predstavlja društveno uvjetovane razlike između žena i muškaraca koje su, za razliku od bioloških i fizioloških razlika, naučne, promjenjive i ovise od različitih faktora: kulture, religije, društvenog i političkog uređenja, ekonomske situacije, klase, starosne dobi, etničke pripadnosti itd.

Gender statistika je oblast koja prožima sva statistička područja. Svrha joj je identificiranje, prikupljanje, diseminacija i analiza statističkih podataka razvrstanih po spolu, kako bi se shvatilo na koji način gender pitanja utječu na pojedince i društvo općenito.

Jednakost spolova podrazumijeva jednaka prava, odgovornosti i mogućnosti između žena i muškaraca. Jednakost ne promovira identičnost žene i muškaraca, nego uvažava njihovo pravo na različitost.

Source of data

Most data presented in this publication are the result of the surveys carried out by the Institute for statistics of BiH, and for them there is no specified data source. A minor part of the data is taken from other institutions, or other special statistical surveys, and data source is particularly listed below the tables and graphs for that data.

Processing and publishing data

Statistical surveys which are conducting by the Institute for statistics of FBiH in accordance with the law on Statistics of the F BiH (FBiH official Gazette no.63/03 and 9/09) and the Plan of the statistical research of interest to the Federation of Bosnia and Herzegovina (for every year separately), Gender statistics is integral part of statistical researches. Gender component is respected in the developing all statistical surveys where applicable.

Definitions and explanations

Gender presents socially conditioned differences between women and men which are, in contrast to the biological and psychological differences, learned, changeable and dependent on different factors: culture, religion, social and political organization, economic situation, class, age, ethnicity, etc.

Gender statistics is a field that permeates all statistical areas. Its goal is identification, collection, dissemination and analysis of statistical data disaggregated by sex, in order to understand how gender issues affect individuals and society in general.

Gender equity means equal rights, responsibilities and opportunities for women and men. Equity does not promote uniformity of women and men, but respects their right to be different.

Ravnopravnost spolova podrazumjeva ravnopravnu vidljivost, osposobljenost i sudjelovanje spolova u svim vidovima javnog i privatnog života.

Gender mainstreaming predstavlja ugradnju prioriteta i potreba žena i muškaraca u sve zakone, strategije, planove, programe i akcije društva, radi postizanja jednakosti i ravnopravnosti spolova, uzimajući u obzir posljedice koje će ove akcije imati na žene i muškarce.

Nasilje nad ženama označava kršenje ljudskih prava i oblik diskriminacije nad ženama, a predstavlja sva djela rodno zasnovanog nasilja koja dovode ili mogu dovesti do: fizičke, seksualne, psihičke, odnosno finansijske povrede ili patnje za žene, obuhvatajući i prijetnje takvim djelima, prinudu ili proizvoljno lišavanje slobode, bilo u javnosti bilo u privatnom životu.

Gender equality means an equal visibility, qualification and participation of genders in all aspects of public and private.

Gender mainstreaming represents incorporation of the priorities and needs of women and men in all laws, strategies, plans, programs and actions of the society, in order to achieve gender equity and equality, taking into account the consequences that these actions will have on women and men.

Violence against women is understood as a violation of human rights and a form of discrimination against women and shall mean all acts of gender-based violence that result in, or are likely to result in, physical, sexual, psychological or economic harm or suffering to women, including threats of such acts, coercion or arbitrary deprivation of liberty, whether occurring in public or in private life.
