## PREDGOVOR

Federalni zavod za statistiku (FZS) u saradnji sa Agencijom za statistiku Bosne i Hercegovine (BHAS) i Republičkim zavodom za statistiku Republike Srpske (RZSRS) proveli su u 2021/2022. godini u Bosni i Hercegovini (BiH) Anketu o potrošnji domaćinstava.

Anketa je provedena u skladu sa međunarodnim standardima i metodološkim preporukama EUROSTAT-a, što omogućava međunarodnu uporedivost podataka. Ova Anketa o potrošnji domaćinstava peta je po redu u Federaciji Bosne i Hercegovine, a prethodna je provedena 2015. godine.

Podaci dobijeni Anketom prezentovani su u agregiranom obliku, čime je u skladu sa odredbama Zakona o statistici FBiH u potpunosti osigurana tajnost ličnih podataka o domaćinstvima i osobama.

Publikacija sadrži analizu rezultata Ankete o potrošnji domaćinstava iz 2021/2022. godine: analizu socio-ekonomskih karakteristika domaćinstava u Federaciji BiH, uslova stanovanja, nivoa i strukture izdataka domaćinstava, analizu siromaštva. Anketa o potrošnji domaćinstava u 2021/2022. godini sadrži i ad-hoc modul Zdravstvo i socijalna uključenost, baziran na pitanjima iz EU- SILC ankete.

Baze agregiranih podataka dostupne su na web stranici: [www.fzs.ba](http://www.fzs.ba), tako da korisnici mogu u svakom trenutku pristupiti i raditi jednostavnije analize i ukrštanje podataka. Publikacija je također dostupna u elektronskoj verziji na prethodno navedenoj web stranici.

Posebno poštovanje i zahvalnost za saradnju iskazujemo svim domaćinstvima koja su bila dio uzorka za ovu anketu, članovima domaćinstva koji su odgovarali na pitanja iz upitnika i na taj način davali potrebne podatke za analizu, kao i anketarima koji su savjesno obavljali svoj posao.

Prof.dr. Emir Kremić, direktor  
Federalnog zavoda za statistiku

## FOREWORD

*Institute for Statistics of Federation Bosnia and Herzegovina, in cooperation with Agency for statistics of Bosnia and Herzegovina (BHAS) and the Republic of Srpska Institute for statistics (RZSRS) carried out Household budget survey in Bosnia and Herzegovina in 2021/2022.*

*The survey was carried out pursuant to the international standards and methodological recommendations of EUROSTAT which enables international comparison of the data. This Household budget survey is the fifth one in Federation of BiH and the previous one was carried out in 2015.*

*The data obtained from the survey was presented in aggregated form, ensuring, pursuant to the regulations of the Law on Statistics of Federation of BiH, complete confidentiality of the personal data of households and individuals.*

*The edition contains analysis of the results of the Household budget survey in 2021/2022: analysis of social economic features of the households in Federation of BiH, living conditions, levels and structures of the expenditure of the households, analysis of the poverty. Household budget survey 2021/2022 contains ad-hoc module Health and social involvement, based on the questions from EU-SILC survey.*

*The e-version of the edition is also available at web site: [www.fzs.ba](http://www.fzs.ba), so that users can access and do simpler data analysis and cross-referencing at any time. The publication is also available in an electronic version on the already mentioned website.*

*Hereby, we express our special respect and gratitude to all the households that were part of the sample for this survey, to the household members who responded to the questionnaire, thus providing the necessary data for analysis, and to the pollsters who conscientiously carried out their work.*

Siromašna i nesiromašna domaćinstva prema tri različite linije siromaštva</b><br><i>Poor and non-poor households according to three different poverty lines</i>                                                                                                                                                                                                                                                                                  | 72 |

## UVOD

Anketa o potrošnji domaćinstava je statističko istraživanje kojim se od anketiranih domaćinstava prikupljaju podaci o izdacima za potrošnju, potrošnji iz vlastite proizvodnje, prihodima, kao i podaci o važnijim pokazateljima životnog standarda (uslovi stanovanja, snabdjevenost domaćinstava trajnim potrošnim dobrima, načinu zagrijavanja stana, putovanjima, odnosno godišnjim odmorima), te podaci o osnovnim demografskim, ekonomskim i socijalnim karakteristikama domaćinstava.

Struktura izdataka za potrošnju prati se prema međunarodnoj Klasifikaciji individualne potrošnje prema namjeni (COICOP), koja ih razvrstava na 13 glavnih grupa: (1) Hrana i bezalkoholna pića; (2) Alkoholna pića i duvan; (3) Odjeća i obuća; (4) Stanovanje, električna energija, plin, voda i ostali energenti; (5) Namještaj, oprema za domaćinstva i usluge u domaćinstvu; (6) Zdravstvo; (7) Prevoz; (8) Komunikacije; (9) Rekreacija i kultura; (10) Obrazovanje; (11) Ugostiteljske usluge i usluge smještaja; (12) Usluge osiguranja i finansijske usluge i (13) Ostali proizvodi i usluge.

### Uzorak

Anketa o potrošnji domaćinstava je sprovedena na osnovu dvoetapnog stratifikovanog uzorka, sa popisnim krugovima kao primarnim i domaćinstvima kao sekundarnim jedinicama izbora. Anketa o potrošnji domaćinstava/kućanstava (APD) u Bosni i Hercegovini je provedena u periodu 01.04.2021. - 31.03.2022. godine. Od ukupnog broja domaćinstava predviđenih za anketiranje u Federaciji BiH u 2021/2022. godini (6.664 domaćinstava), anketirano je 4.781 domaćinstava.

## METODOLOŠKA OBJAŠNJENJA I DEFINICIJE

### Jedinica posmatranja

Jedinica posmatranja je svako domaćinstvo izabrano u uzorak. Anketom se ne obuhvataju tzv. kolektivna domaćinstva (domovi za zbrinjavanje i njegu, bolnice, samostani, manastiri, studentski domovi, internati, zatvori i sl.) u kojima ljudi borave trajno ili godinu i više neprekidno.

### Metod anketiranja

U anketi se primjenjuju metod vođenja dnevnika i metod intervju na bazi upitnika.

Podaci se prikupljaju kontinuirano 12 mjeseci (kalendarska godina) putem sljedeća tri upitnika:

1. Dnevnik nabavki (APD/1), koji domaćinstva koriste da svakodnevno, u periodu od 14 dana, upisuju količine i vrijednosti kupljenih proizvoda, kao što su hrana, piće i duvan, ali i ostalih proizvoda i usluga koja domaćinstvo obično koristi (troškovi za prevoz, lična higijena, knjige, novine i raznovrsni štampani materijal, itd.).
2. Dnevnik o potrošnji iz vlastite proizvodnje (APD/1A), u koji domaćinstvo svakodnevno, u periodu od 14 dana, upisuje utrošene/konsumirane količine i procijenjene vrijednosti proizvoda koje je samo proizvelo (po maloprodajnim cijenama – lokalno tržište).
3. Završni intervju (APD/2), kojim se prikupljaju podaci o članovima domaćinstva, o izdacima domaćinstva za stanovanje, nabavku trajnih potrošnih dobara i neprehrambenih proizvoda (namještaj, usluge, odjeća i obuća, zdravlje, transport i telekomunikacije, slobodno vrijeme i rekreacija, kultura, obrazovanje, itd.), kao i podaci o prihodima i investicijama domaćinstva.

## INTRODUCTION

Household Budget Survey is a statistical survey carried out in order to collect data on consumption expenditure, consumption of own production, income, and data on other important indicators of living standard (living conditions, availability of consumer durable goods in households, heating conditions, travel and/or annual vacations) from surveyed households, as well as data on basic demographic, economic and social characteristics of the households.

Composition of consumption expenditure items is monitored pursuant to the international Classification of individual consumption by purpose (COICOP), which classifies these into 13 main groups: (1) Food and non-alcoholic beverages, (2) Alcoholic beverages and tobacco, (3) Clothing and footwear, (4) Housing, electricity, gas, water and other energy commodities, (5) Furnishing and household equipment and services, (6) Health, (7) Transport, (8) Communication, (9) Recreation and culture, (10) Education, (11) Restaurants and hotels, (12) Insurance and financial services and (13) Miscellaneous goods and services.

### Sample

Households Budget Survey was carried out on the basis of a two-stage stratified sample, with enumeration areas as primary and with households as secondary units of choice. The Household Budget Survey (HBS) in Bosnia and Herzegovina was conducted in the period 01.04.2021. - 31.03.2022. Out of the total number of households planned for interviewing in Federation of BiH in 2021/2022 (6,664 households), 4,781 households were interviewed.

## METHODOLOGICAL EXPLANATION AND DEFINITIONS

### Observation unit

An observation unit (or survey unit) is any household included in the sample. The survey did not cover collective households (geriatric and similar centers, hospitals, convents, monasteries, student dormitories, boarding schools, prisons, etc.), where people live permanently or for one or several years without interruption.

### Survey method

The method of completing the diaries and interview method based on questionnaires were used for the survey.

Data were being collected continuously for 12 months (calendar year) through the following three questionnaires:

1. Diary of Purchases (APD/1), used by households on the daily basis over a 14 day period to record the quantities and values of purchased products, such as food, beverages and tobacco, as well as other products and services which the household uses on a regular basis (transport costs, personal hygiene, books, newspapers and various printed material, etc.).
2. Diary of Consumption of Own Production (APD/1A), in which households, on the daily basis over a 14 day period, record consumed/spent quantities and estimated values of articles it itself (at retail prices – local market).
3. Final Interview (APD/2), which is used to collect data on household members, household expenditures for housing, procurement of consumer durable goods and non-food products (furniture, services, clothing and footwear, health, transport and communication, leisure and recreation, culture, education, etc.), as well as data on household income and investments

## Referentni period

Referentni period je period za koji se prikupljaju informacije. U anketi su se koristili različiti referentni periodi u zavisnosti od tipa informacija koje se traže i ciljeva svake teme koja se želi analizirati.

Za podatke koji se iskazuju u Dnevniku nabavki i Dnevniku o potrošnji iz vlastite proizvodnje referentni period je 14 dana, dok za su za podatke koji se prikupljaju Završnim intervjuom referentni periodi različiti, zavisno od namjene izdataka, i mogu da budu jedan, tri ili dvanaest posljednjih mjeseci prije sprovođenja intervjua.

## Tipologija naseljenih mjesta

Prema važećoj statističkoj tipologiji naseljena mjesta u Bosni i Hercegovini su svrstana u dva tipa: gradska i ostala. Tip "ostalo" obuhvata seoska i prigradska naselja.

## DEFINICIJE

**Domaćinstvo:** Domaćinstvom se smatra svaka porodična ili druga zajednica osoba koje zajedno stanuju i zajednički troše svoje prihode za podmirjenje osnovnih životnih potreba, bez obzira da li se svi članovi stalno nalaze u mjestu gdje je nastanjeno domaćinstvo ili neki od njih privremeno borave u drugom naselju odnosno stranoj državi, zbog rada, školovanja ili iz drugih razloga.

Karakteristike domaćinstva su:

- a) život u istoj stambenoj jedinici i podjela troškova; drugim riječima, domaćinstvo je grupa osoba koje uobičajeno žive u istoj stambenoj jedinici ili njenom dijelu (žive pod istim krovom), koja jesu ili nisu u krvnom srodstvu, i koji se zajednički hrane;
- b) postojanja porodičnih ili emocionalnih veza;
- c) samac koji živi, troši i hrani se samostalno, takođe predstavlja domaćinstvo

**Nosilac domaćinstva:** Osoba koja se u svrhu ankete određuje kao takva, bez obzira na razlog (osoba na kojoj se domaćinstvo vodi ili za koju se izjasne članovi domaćinstva). Ako se članovi domaćinstva sami ne izjasne ko je nosilac domaćinstva, po pravilu je to osoba koja najviše doprinosi prihodima domaćinstva.

**Koeficijent maskuliniteta:** Broj muškaraca u datoj populaciji na 100 žena.

**Izdaci za potrošnju domaćinstava:** Izdaci za robe i usluge kupljene ili utrošene iz vlastite proizvodnje s ciljem zadovoljavanja potreba domaćinstava. Uključeni su i proizvodi iz bašti domaćinstava ili sa poljoprivrednih imanja - potrošnja iz vlastite proizvodnje, robe i usluge koje daje poslodavac u vidu plate, imputirana renta za stambene jedinice koje su u vlasništvu ili se besplatno koriste.

**Prosječni mjesečni izdaci:** Odnos ukupnog iznosa koji su potrošila domaćinstva za određene proizvode i usluge ili grupu proizvoda i usluga (zbir zadataka svakog domaćinstva) i ukupnog broja domaćinstava.

## Reference period

Reference period is a period for which the information is collected. The survey used various reference periods, depending on the type of information to be sought and the nature of each topic to be analyzed.

For data to be recorded in the Diary of Purchases and in the Diary of Consumption of Own Production, the reference period is 14 days. For data collected through the Final Interview, reference periods are different, depending on expenditure purpose, and these may be one, three or twelve months prior to the interview.

## Typology of settlements

According to the valid statistical typology, populated places in Bosnia and Herzegovina are classified in two types: urban and other. The "other" type includes rural and suburban settlements.

## DEFINITIONS

**Household:** The household is considered to be every family or other community of people living together and spending their incomes together to satisfy basic living needs, regardless if all the members are all the time in the place where the household resides or some of them occasionally reside in other settlement i.e. foreign country due to work, schooling or other reasons.

Features of the household are:

- a) living in the same living unit and distribution of expenditure; in other words, the household is a group of people who usually live in the same living unit or in its part (live under the same roof), that are or are not in blood relations, and who eat together;
- b) existence of family or emotional relationships;
- c) a single who lives, spends and eats on their own, also represents a household.

**The head of the household:** The person who is entitled to be the one with the purpose of the survey regardless of reason (the person the household is registered on or the one who the members of the household chose). If the members of the household do not say who the head of the household is, it shall be the person who contributes to the incomes of the households the most.

**Coefficient of masculinity:** Number of men in provided population on 100 women.

**The consumption expenditure of the households:** Expenditure on goods and services purchased or consumed from own production with the purpose of satisfying the needs of the household. The products from the gardens of the households or the ones from the farm households are included – consumption from own production, goods and services that are given by an employer in terms of salary, imputed rent for living units that are owned or used free of charge.

**Average monthly expenditure:** The ratio of total amount that the households spent on certain products and services or group of products and services (total of all expenditure of every household) to total number of the households.

## Bračni status

**Neženjen/neudata:** osoba koja nikada nije bila u braku i ne živi u vanbračnoj zajednici. Djeca se ne uključuju u ovaj modalitet.

**Žive zajedno u neformalnom braku:** osobe koje žive zajedno, a nisu međusobno zakonski vjenčane.

**zveden/razvedena:** osoba koja je zakonski razvedena.

**Rastavljen/rastavljena:** osoba koja ne živi sa svojim bračnim partnerom,

## Obrazovanje

**Bez škole:** u ovaj modalitet se uključuju djeca predškolskog uzrasta, djeca koja još uvijek pohađaju osnovnu školu i starije osobe bez bilo kakve stečene diplome.

**Osnovna škola:** u ovaj modalitet se uključuju koje posjeduju diplomu završene četverogodišnje ili osmogodišnje škole.

**Srednja škola:** ovaj modalitet uključuje osobe koje posjeduju diplomu trogodišnjeg ili četverogodišnjeg srednjeg obrazovanja (zanati, trgovačke škole itd.)

**Viša škola, prvi stepen fakulteta ili VKV:** ovaj modalitet uključuje osobe koje posjeduju diplomu dvogodišnjeg ili trogodišnjeg univerzitetskog obrazovanja i diplomu visoko kvalifikovanog radnika.

**Fakultet ili akademija:** ovaj modalitet uključuje osobe koje posjeduju diplomu četverogodišnjeg, petogodišnjeg ili šestogodišnjeg univerzitetskog obrazovanja.

**Specijalizacija, zvanje magistra ili doktora:** ovaj modalitet uključuje osobe koje posjeduju diplomu završenih specijalističkih, postdiplomskih ili doktorskih studija.

## Zaposlenost

Zaposlenost podrazumijeva radni odnos i druge oblike rada (bez obzira na tip ugovora ili angažovanja), kojim se stječu sredstva za život, odnosno svaka ekonomska aktivnost od barem jednog sata u toku posmatrane sedmice (od ponedjeljka do nedjelje).

**Status tekuće aktivnosti:** status tekuće aktivnosti je status definisan na osnovu slobodnog izjašnjavanja članova domaćinstva.

**Zaposlen/a:** osoba koja je u radnom odnosu kod poslodavca (u preduzeću, bez obzira na oblik vlasništva, državnim institucijama ili organizacijama, bankama, međunarodnim organizacijama itd.), zatim, samozaposlena osoba (obrtnik, poljoprivrednik na vlastitom gazdinstvu), osoba u slobodnom zanimanju (slikari, muzičari itd), pomažući članovi na poljoprivrednom imanju ili obrtu i sve druge osobe koje su radile i za to bile plaćene (u novcu ili naturi).

**Nezaposlen/a:** osoba koja je izgubila posao, traži posao i ponuđeni posao može prihvatiti. Osobe koje traže zaposlenje po prvi put isključuju se iz ovog modaliteta i uključuju u modalitet "traži prvo zaposlenje".

**Traži prvo zaposlenje:** osoba koja nikad nije radila i prvi put traži posao.

**Domaćica:** osoba koja vodi brigu o porodici i domaćinstvu. Ovaj modalitet definiše aktivnost, a ne odnos sa drugim osobama, bez obzira na spol ili bračni status. Uključuje i osobe koje primaju porodičnu penziju a nisu radile u prošlosti.

**Penzioner:** osoba koja prima penziju nakon prestanka aktivnog radnog života.

**Student/učenik srednje škole:** osoba koja studira ili pohađa srednju školu.

**Nesposoban za rad:** osoba koja je zbog izvjesnih razloga nesposobna za rad (bolest, hendikepiranost, invalidnost, starost sl.)

## Marital status

*Unmarried: the person who has never been married or does not live in illegitimate marriage. The children are not included in this modality.*

*Living together in illegitimate marriage: people living together but not legally married.*

*Divorced: person who is legally separated.*

*Separated: person who does not live with their marital partner, but they are not legally divorced.*

## Education

*No education: the preschool children, children still attending primary school and adult people with no acquired school diploma are included in this modality.*

*Primary school: people having a diploma on completed four-year or eight-year primary school are included in this modality.*

*Secondary school: this modality includes the people having a diploma of three-year or four-year secondary school education (crafts, trade school etc.)*

*Two-year College, the first degree of faculty or highly skilled worker: this modality included people having a diploma of two-year or three-year of university education and diploma on highly skilled worker.*

*Faculty or academy: this modality includes people having a diploma on four-year, five-year or six-year university education.*

*Specialization, title of Master of Arts or Doctorate Degree: this modality includes people having a diploma on completed specializing, post graduate or doctoral studies.*

## Employment

*Employment considers the employment status and other forms of work (regardless of type of contract or engagement), by which the life means are acquired i.e. every economic activity of at least one hour work in the observing week (from Monday to Sunday).*

*Current activity status: the status defined according to free statements of the members of the household.*

*Employed: a person who is employed by employer (in a company, regardless of type of ownership, state institutions or organizations, banks, international organizations etc.), then self-employed person (craft, farmer at own household), a freelance person (artists, musicians etc.), assistant members at the agricultural household or craft and all the other people who worked and were paid for it (money or in kind).*

*Unemployed: a person who lost their job, looks for a job and the offered job can accept. People who look for a job for the first time are excluded from this modality and they are included in the modality "look for first employment".*

*"Looking for first employment": a person who has never worked and looks for a job for the first time.*

*Housewife: a person who takes care of family and household. This modality defines activity not the relation to other people regardless of gender or marital status. It includes people who receive family pension and the ones who did not work before.*

*Pensioner: a person who receives a pension after the cessation of active working life.*

*Pupil / Secondary school student: a person who studies or attends secondary school.*

*Incapable of work: a person who is due to certain reasons incapable of working (decease, handicap, disability, age etc.)*

## Status u zaposlenju

**Poslodavac:** vlasnik ili suvlasnik preduzeća, radnje ili slobodnog zanimanja koji zapošljava radnike.

**Samozaposlenik ili slobodno zanimanje:** vlasnik ili suvlasnik preduzeća, radnje ili slobodnog zanimanja, individualni poljoprivrednik koji ne zapošljava radnike (advokati, trgovački putnici, umjetnici, zanatlije, individualni poljoprivrednici i sl.)

**Zaposlen kod poslodavca:** zaposlen u državnom (privatnom) preduzeću, obrtu ili slobodnoj profesiji i prima naknadu za svoj rad.

**Neplaćeni i/ili pomažući radnik u porodičnoj firmi:** radi kao pomažući član na porodičnom poljoprivrednom gazdinstvu, preduzeću ili obrtu bez posebne ili redovne nadnade.

**Pripravnik:** osoba koja je završila srednju ili višu školu, odnosno fakultet, koja prvi put zasniva radni odnos u tom zanimanju i koja je obavezna položiti stručni ispit.

**Privremeno zaposlenje ili ugovor određenog trajanja:** osoba koja je zaposlena na osnovu rješenja ili ugovora ograničenog trajanja bez obzira na dužinu radnog angažmana (bitno je da nije na neodređeno vrijeme).

**Privremeni posao bez ugovora:** osoba koja radni odnos zasniva na usmenom dogovoru.

**Plaćanje po dogovoru za obavljeni posao:** odnosi se na posao jednokratnog karaktera zasnovan na usmenom dogovoru.

**Sezonski radnik:** osoba koja radi na sezonskim poslovima (poljoprivredni radnici i sl.).

## Stanovanje

**Uslovi stanovanja:** Uslovi stanovanja domaćinstva određeni su karakteristikama stambenih jedinica, raspoloživošću usluga i dobara, te izdacima za plaćanje rente ili računa.

**Sistem grijanja:** predstavljaju centralno grijanje iz toplana, etažno grijanje ili pojedinačne peći i ostali načini grijanja kojima se zagrijava kompletna stambena jedinica.

## Siromaštvo

**Linija siromaštva:** prag u odnosu na izdatke za potrošnju po kojem se domaćinstva svrstavaju u kategoriju siromašnih domaćinstava i onih koja nisu siromašna. Relativna linija siromaštva je postavljena na 60% medijane izjednačenih mjesečnih izdataka za potrošnju.

**Izjednačeni izdaci za potrošnju domaćinstava:** mjesečni izdaci domaćinstva podijeljeni sa ekvivalentnom veličinom domaćinstva, prema tzv. „modificiranoj skali ekvivalentnosti – OECD“ (skala ekvivalentnosti daje ponder 1,0 nosiocu domaćinstva, 0,5 drugim članovima od 14 godina i više i 0,3 svakom djetetu ispod 14 godina).

**Definitivno siromašna domaćinstva** su domaćinstva sa potrošnjom ispod 50% medijane prilagođene potrošnje.

**Slabo siromašna domaćinstva** su domaćinstva sa potrošnjom između 50% i 60% medijane prilagođene potrošnje.

**Domaćinstva na granici siromaštva** su domaćinstva sa potrošnjom između 60% i 70% medijane prilagođene potrošnje.

**Gini koeficijent:** mjera nejednakosti raspodjele prihoda (u ovom slučaju potrošnje). Kad bi postojala savršena jednakost (tj. kad bi svaka osoba imala jednaku potrošnju), tad bi Ginijev koeficijent iznosio 0%. Što je vrijednost bliža 100%, to je nejednakost veća.

## Employment status

**Employer:** owner or co-owner of a company, store or freelance who employs workers

**Self-employed or freelance:** owner or co-owner of a company, store or freelance, individual farmer who does not employ workers (lawyers, salespeople, artists, craftsmen, individual farmers etc.)

**Fulltime employment or contract of indefinite term imply:** Employed at employer: employed in state (private) company, craft or freelance and receives salary for their work.

**Unpaid and / or assisting worker in a family company:** works as an assisting member at family agricultural household, company or craft without special or regular salary.

**Trainee:** a person who has completed secondary or two-year college school i.e. faculty, who starts working for the first time and is obliged to pass qualification exam.

**Temporary employment or contract with definite term:** a person who is employed pursuant to decision or contract with definite term regardless the length of working employment (it is important that it is not fulltime)

**Temporary engagement without contract:** a person who starts working according to verbal contract.

**Payment based on agreement for the work done:** it refers to one-time work based on verbal agreement.

**Seasonal worker:** a person who works at seasonal work (farmers etc.)

## Housing

**Housing conditions:** the housing conditions of the household are determined by the features of the living units, availability of services and assets then by the expenditure on paying rent or bills.

**Heating system:** it refers to central heating from heating plants, apartment-combined heating or single furnaces and other ways of having the complete living unit heated.

## Poverty

**The line of poverty:** threshold in contrast with the consumption expenditure by which the households are classified in category of poor households and the ones that are not poor. Relative line of poverty is set at 60% of median of equalized monthly consumption expenditure.

**The equivalent consumption expenditure of the household:** monthly expenditure divided by equivalent size of the household according to so called "modified equivalence scale – OECD" (the scale of equivalence gives a weight 1,0 to the head of the household, 0,5 to other members aged 14 and over and 0,3 to every child under the age of 14).

**Definitely poor households** are the households with the expenditure below 50% of median adjusted expenditure.

**Scarcely poor households** are the households with the expenditure between 50% and 60% of median adjusted expenditure.

**The households at the risk of poverty** are the households with expenditure between 60% and 70% of median adjusted consumption.

**The Gini coefficient:** it is a measure of income distribution inequality (in this case, consumption). If there were perfect equality (i.e., if every person had the same consumption), the Gini coefficient would be 0%. The closer the value is to 100%, the greater the inequality.

**Jaz siromaštva:** mjeri koliko je (u procentima) prosječan izdatak za potrošnju siromašnih domaćinstava ispod praga siromaštva.

**Omjer kvintila S80/S20:** poredi ukupan ekvivalentan izdatak gornjeg kvintila sa izdatkom najnižeg kvintila (20% najniže izjednačene distribucije).

**Socijalna isključenost** se definiše kao proces kojim su određeni pojedinci spriječeni u punom učestvovanju u društvu zbog svog siromaštva ili nedostatka osnovnih znanja i mogućnosti za doživotno učenje ili kao rezultat diskriminacije.

**Napomena:**

Indikatori siromaštva dati u ovoj publikaciji računaju se na osnovu metodologije Eurostata, tzv. relativnog siromaštva, prema kojoj je siromaštvo definisano ekvivalentnim izdacima za potrošnju domaćinstava koji su ispod standardnog praga, koji je postavljen na 60% medijane mjesečnih izjednačenih izdataka domaćinstava. Domaćinstva koja imaju mjesečne izdatke ispod 60% ove medijane smatraju se siromašnim (definicije date u publikaciji).

U zemljama EU koristi se ista metodologija, ali se ona primjenjuje na ukupan prihod domaćinstava umjesto na ukupnu potrošnju, a potrebni podaci o prihodima se prikupljaju putem EU-SILC ankete (Anketa o prihodima i uslovima života). Planirano je da se računanje relativne linije siromaštva u BiH u budućnosti također radi na osnovu podataka o ukupnom prihodu prikupljenih putem EU-SILC ankete, čime bi se postigla potpuna uporedivost sa EU zemljama i zemljama iz okruženja, koje ovu metodologiju već primjenjuju i imaju višegodišnju praksu provođenja EU-SILC ankete.

*Poverty gap: it measures how much (in percentages) average consumption expenditure of poor households is below the threshold of the poverty.*

*Quintile ratio S80/S20: it compares total equivalent expenditure of upper quintile with the expenditure of the lowest quintile (20% of the lowest equivalent distribution).*

*Social exclusion is defined as a process by which certain individuals are prevented from full participation in the society due to their poverty or lack of basic knowledge and possibilities for long lasting learning or as a result of discrimination.*

**Notes:**

*The poverty indicators presented in this publication are calculated on the basis of Eurostat's methodology, the so-called relative poverty, according to which poverty is defined by equivalent household consumption expenditure that is below the standard threshold, which is set at 60% of the median monthly equalized household expenditure. Households with monthly expenditures below 60% of this median are considered poor (definitions given in the publication).*

*In EU countries, the same methodology is used, but it is applied to the total income of households instead of total consumption, and the necessary income data is collected through the EU-SILC Survey (Survey on Income and Living Conditions). It is planned that the calculation of the relative poverty line in BiH in the future will also be done on the basis of data on total income collected through the EU-SILC survey, which would achieve full comparability with EU countries and countries from the region, which already apply this methodology and have a long-term practice of conducting the EU-SILC survey.*

**ZNAKOVI I SKRAĆENICE**

- Nema pojave
- : Podaci su statistički nepouzdan  
(do 20 pojava)
- ( ) Podaci su statistički manje pouzdani
